

Dear New Patient,

We are delighted to welcome you to our practice and appreciate the trust you have placed in us by scheduling an appointment for an evaluation and consultation.

An accurate record of your past and current medical condition is vitally important. Please complete and mail or fax {(502) 245-1065} to us all the new patient forms from our website as soon as possible. Do not write extra information outside the lines on the questionnaires since we gather all needed information thoroughly during your interview. The patient information form must include the name of the doctor or dentist who has referred you. **New patients will be rescheduled if they have received new patient paperwork via our website, mail, or fax, but do not have it filled out beforehand or if they arrive 15 minutes later than their scheduled appointment time.**

Your appointment will take approximately **two and a half hours**. The fee for our complete diagnostic evaluation is \$216.00. Your insurance co-payment **or** payment in full for the diagnostic fee is required at your first visit. Any necessary imaging will be charged accordingly. If your insurance requires a referral, it is your responsibility to call your primary care physician to obtain the referral. Please have your PCP fax your referral to (502) 245-1065 prior to the appointment. If you have had a **sleep study**, bring those results with you or have them faxed to us before your appointment. Bring the results of any X-rays, CT scans, or MRI results that you have already had done for this problem. In order to obtain the most accurate exam results, patients shall abstain from pain medications the day of the exam. **Also, please bring any mouth guards or TMJ appliances that you may already have to this appointment.**

Our staff welcomes the opportunity to assist you in every way possible. We will call to remind you of your scheduled appointment two days in advance. **If we do not have verbal confirmation from you within 24 hours of your appointment, we will offer that time slot to another patient in need. Patients who do not show for their first appointment without calling to cancel or reschedule will not be scheduled again.** As a pain practice, we strive to work patients in as quickly as possible, and knowing whether a person intends to keep their appointment helps us achieve that goal. If you have any questions that need to be answered before your evaluation appointment, please call us. In the meantime, we look forward to meeting you and serving your needs.

Sincerely,
Alicia Rademaker
Patient Care Assistant

OFFICE DRUG POLICY

Our office drug policy limits the prescribing of narcotics and benzodiazepines. Narcotics include hydrocodone drugs like Lortab and Vicodin; drugs with codeine; and oxycodone drugs like Oxycontin, Percocet, and Tylox. The benzodiazepine drugs include Ativan, Fiorinal, Klonopin, Restoril, Valium, and Xanax. Drugs such as Soma, Talwin, or Ultram may also be contraindicated. This policy also applies to any other medications that may be potentially addictive or harmful.

Financial Policy

Thank you for choosing our office for your medical needs. We make every effort to work with our patients to ensure affordable services.

We are participating providers with Anthem, Humana, and United Healthcare medical plans. The office will call your insurance company before your first visit to verify your benefits. The insurance information that we give you on your first visit is based solely on the information the office was given by your insurance company. It is only accurate if the insurance company provides correct benefits. The insurance company, not this office, ultimately decides what benefits will or will not be paid. You are responsible to pay your bill within 45 days after your insurance company has rejected the claim.

We also file Medicare and secondary insurance plans. The Medicare fee schedule is accepted on office visits and physical therapy. Medicare does not pay for orthotic devices. If it is recommended by the doctor that you have a TMJ splint, NTI therapy or an OSA sleep appliance, you will be expected to pay the full amount when you receive the appliance.

Tricare is accepted when a referral is received from your primary care provider and authorization is sent to this office. Tricare does require a co-payment on some services. You will be expected to pay any non-covered charges when you receive a statement.

If you are not in one of the health plans with which we are participating providers, you will be responsible to pay your bill in full or make financial arrangements with the office manager. As a courtesy to our patients, your insurance will be billed for you. The insurance company or this office will reimburse any amount paid.

All co-payments, deductibles and any charge not covered by your insurance should be paid at the time of service.

Care Credit is a means that you can use to finance any services not covered by your insurance carrier. Care Credit offers a twelve-month, interest-free plan. All financed services for periods over twelve months will require you to pay interest. The minimum amount financed is \$300.00.

The charge is \$216.00 for an office consultation. There may be an additional charge if x-rays or other imaging is needed, or if additional treatment services are needed. If you do not have insurance coverage with one of the health plans accepted by this office, the total amount is due at the time of service.
